Hydroyatra 2019 Pan India- Simplified Hydroponics Workshops

Hydroyatra 2019 is a brainchild of **Lt Cdr CV Prakash (retd) IN**, Lead Instructor, Farmer and CEO of Aggragannya Skills Private Limited based in Dharwad, Karnataka State, India. This company is the offshoot of the famous “**Pet Bharo Project**” established in the year 2008 and has trained upwards of 10000 students in the field of simplified hydroponics ever since and continues to do so with greater determination to bring easily affordable, sustainable soilless cultivation to India’s teeming millions.

Commencing with our first training batch at Mumbai on 12th Jan 2019, Aggragannya will cover almost thirteen cities and conduct almost 42 workshops all over the nation finishing off on 21st Dec 2019.

Hydroyatra 2019 brings Simplified Hydroponics education literally to your very doorstep. No longer the students need to spend any money on travel, accommodation and food costs as we visit them. This is a huge saving for the prospective participants. What’s more the participant is more receptive as he has no travel fatigue.

Hydroyatra 2019 also sees some new features added to our usual offerings viz. Your Instructor stays back one more day after the workshop is completed so that there can be informal interaction with participants who wish to discuss about their pilot projects, get any lingering doubts cleared and go back to their homes with greater confidence. The 2nd day session is absolutely free.

The hallmark of our training workshop is that participants will be taught personally by the pioneer in Indian Hydroponics viz. Lt Cdr CV Prakash (retd) IN.

Our workshops teach participants not the rosy side of this science but the importance of knowing that Hydroponics is a science, it’s about procedure, process, diligence, persistence, eye for detail, passion, purpose and perseverance. Our teaching methodology keeps the teaching to easily learnable ways and anyone with a basic understanding of high school science can get a grab on the subject.

The tentative program for the **Hydroyatra 2019** is as follows.

AGGRAGANNYA SKILLS PRIVATE LIMITED**DRAFT ANNUAL TRAINING PROGRAM PAN INDIA****2019 PAN INDIA HYDROYATRA**

Day	Date/Month	City	Venue	Time Start	Time End
Saturday	12-Jan	Mumbai	TBA	9am	6pm
Saturday	19-Jan	Bangalore	TBA	9am	6pm
Saturday	02-Feb	New Delhi	TBA	9am	6pm
Saturday	09-Feb	Bangalore	TBA	9am	6pm
Saturday	02-Mar	Chennai	TBA	9am	6pm
Saturday	16-Mar	Mumbai	TBA	9am	6pm
Saturday	06-Apr	Bangalore	TBA	9am	6pm
Saturday	13-Apr	Pune	TBA	9am	6pm
Saturday	20-Apr	Ahmedabad	TBA	9am	6pm

Saturday	07-Dec	New Delhi	TBA	9am	6pm
Saturday	14-Dec	Mumbai	TBA	9am	6pm
Saturday	21-Dec	Bangalore	TBA	9am	6pm

Objective of the workshop

The objective of this workshop is to teach the very basics of what plants need to grow and how to grow them in a soilless method. They are explained the different kinds of media in which plants are grown in Hydroponics. Lots of participants who normally attend our workshops are practitioners of Soilless growing but are self-taught and thus quite confused and during these workshops we clear their worries, remove myths and concepts, clear cobwebs so they go with a great deal of clarity, focus and purpose.

Expected Outcomes

Our simplified hydroponics workshop participants go back with a clear-cut understanding of the cardinal principles of Soilless cultivation, the pillars which cannot be compromised and are non-negotiable. The participants leave with confidence to set up a small affordable Hydroponics pilot set-up at their homes/farms and begin their learning curve. After they have practised for 6-12 months then they may, based on the confidence acquired start their own commercial operation or opt to do our three-month residential practical training course at Dharwad, Karnataka, India.

The Opportunity

This is one of the best opportunities that have ever come to prospective wannabes, ever in the history of this country. It is a golden chance and a sure not-to-miss event.

Jai Jawan, Jai Kisan, Jai Hind!
